Experiences

Visiting Researcher, Wireless Communication Systems Development, WiSE Lab *June 2023 - Present*

- Developing data driven, end-to-end solutions to time-dependent optimization problems in wireless communication systems with GRU, LSTM and Transformers
- Designing a robust framework to generate image data of basestation surroundings based on wireless channel information using GAN and LLM
- Formulating pilot transmission protocol for channel acquisition in polarization reconfigurable MIMO system
- Enhancing polarized antenna selection system via convex-optimization techniques

Graduate Researcher, WiSE Lab *May 2019 – Dec 2022*

- Developed polarized antenna selection scheme to improve the error rate of the system to conventional system with 3 dB signal to noise ratio (SNR) gain for 10^{-3} error rate (coop project with Prof. Andreas Molisch) [2]
- Proposed multi-polarized superposition beamforming to effectively allocate power and subcarriers across two orthogonal polarizations to achieve significant signal to noise ratio gain [1, 4]
- Designed experiments for polarization reconfigurable NOMA with Dynamic ordered SIC

Undergraduate Researcher, WiSE Lab *Jan 2018 - May 2019*

- Experimented polarized-MIMO (P-MIMO) system under different channel models to verify the practicality of the system [5]
- Prototyped analog beamforming in MIMO communication system with universal software radio peripheral (USRP) device with real-time wireless channel

First Place Award for Senior Capstone Design Competition

2018 IGESSC Best Paper Award.

Invited Talks

EE 488: Communication Capstone Design Class, *Visiting Lecturer*

- Conducted a tutorial on applied machine learning for solutions in wireless communication *Spring 2024*
- Held tutorial on LabVIEW to operate USRPs to design beamforming systems *Fall 2019*

Education

California State University Long Beach Long Beach, CA, USA
Master of Science in Electrical Engineering May. 2022
Advisors: Seok Chul Kwon
Thesis: Enhancement of Multiple Input Multiple Output (MIMO) Communication System with Polarization
Graduated with graduate Dean's List of University Scholars and Artists

California State University Long Beach Long Beach, CA, USA
BAS.c. in Electrical Engineering Dec. 2019
Graduated on a Dean's Honour List, Magna Cum Laude and Distinction
